**THE APPROXIMATION OF BIVARIATE FUNCTIONS BY USING  
GENERALIZED BERNSTEIN OPERATORS**

**Dan BĂRBOSU**

**Abstract.** The paper summarizes recent results obtained by the author, concerning the approximation of bivariate functions using Bernstein generalized operators.

**1991 Mathematics subject classification** 41A10

**Key words and phrases:** Bernstein operators, bivariate function, parametric extensions, blending operator, modulus of smoothness, mixed modulus of smoothness, B-continuous function, Korovkin theorem.
