

## Generalized Weyl's theorems for polaroid operators

C. CARPINTERO, D. MUÑOZ, E. ROSAS, O. GARCÍA and J. SANABRIA

### ABSTRACT.

In this paper we establish necessary and sufficient conditions on bounded linear operators for which generalized Weyl's theorem, or generalized  $a$ -Weyl theorem, holds. We also consider generalized Weyl's theorems in the framework of polaroid operators and obtain improvements of some results recently established in [20] and [29].
