

Some coincidence point theorems in ordered metric spaces via w -distances

CHIRASAK MONGKOLKEHA¹ and YEOL JE CHO^{2,3}

ABSTRACT.

The purpose of this paper is to prove some existence theorems of coincidence points for generalized weak contractions in the setting of partially ordered sets with a metric via w -distances and give some example to illustrate our main results.

Acknowledgements. The author would like to thank the Kasetsart University Research and Development Institute (KURDI) for financial support.
