

# Carpathian Journal of Mathematics

## CONTENTS

Vol. 36, No 3, 2020

**VASILE BERINDE**

*Carpathian Journal of Mathematics celebrates 30 years of publication* . . . . . i - iv

**MARAT AKHMET, MADINA TLEUBERGENOVA and AKYLBEK ZHAMANSHIN**

*Quasilinear differential equations with strongly unpredictable solutions* . . . . . 341 - 349

**ANDREI ALEXANDRU and GABRIEL CIOBANU**

*Uniformly supported sets and fixed points properties* . . . . . 351 - 364

**I. K. ARGYROS, R. P. IAKYMCHUK, S. M. SHAKHNO and H. P. YARMOLA**

*On an improved convergence analysis of a two-step Gauss-Newton type method under generalized Lipschitz conditions* . . . . . 365 - 372

**CAMELIA BĂRBATU and DANIEL BREAZ**

*New univalence criteria for an integral operator with Mocanu's and Şerb's lemma* . . . . . 373 - 379

**ŠTEFAN BEREŽNÝ and MICHAL STAŠ**

*On the crossing number of join of the wheel on six vertices with the discrete graph* . . . . . 381 - 390

**GRIGORE CĂLUGĂREANU and HORIA F. POP**

*Trace 1,  $2 \times 2$  matrices over principal ideal domains are exchange* . . . . . 391 - 399

**OVIDIU COSMA, PETRICĂ C. POP and IOANA ZELINA**

*A novel genetic algorithm for solving the clustered shortest-path tree problem* . . . . . 401 - 414

**SORIN G. GAL and IONUȚ T. IANCU**

*Quantitative approximation by nonlinear convolution operators of Landau-Choquet type* . . . . . 415 - 422

**VIJAY GUPTA**

*A generalized class of integral operators* . . . . . 423 - 431

**ERDAL KARAPINAR, ADRIAN PETRUȘEL and GABRIELA PETRUȘEL**

*On admissible hybrid Geraghty contractions* . . . . . 433 - 442

**JUTAMAS KERDKAEW, RABIAN WANGKEEREE and GUE MYUNG LEE**

*On optimality conditions for robust weak sharp solution in uncertain optimizations* . . . . . 443 - 452

**RODICA LUCA**

*Existence of solutions for a fractional nonlocal boundary value problem* . . . . . 453 - 462

**MARIN MARIN, ANDREAS ÖCHSNER and SORIN VLASE**

*Effect of voids in a heat-flux dependent theory for thermoelastic bodies with dipolar structure* . . . . . 463 - 474

**HONG-KUN XU, NAJLA ALTWAIJRY and SOUHAIL CHEBBI**

*An iterative regularization method for variational inequalities in Hilbert spaces* . . . . . 475 - 482
